

The CSC Difference:

*Why Clients Change Their
Registered Agent to CSC*

THE CSC DIFFER- ENCE

Why clients change their registered agent to CSC

For many companies, once they have a registered agent in place, busy workloads get in the way of stopping to consider whether another service provider could do more for their organization. Maintaining the status quo may be the default because nothing is “broken.” But you have options when it comes to your registered agent, and the level of service and technology available can vary significantly among providers.

If you haven't evaluated some of the many reasons clients change their registered agent to CSC, now is the time. CSC's unique value lies in our true integration of service and technology, creating significant efficiencies across departments for our customers. Read on to find out how CSC's service model and online solutions work harder for your organization to consistently outperform other providers.

Industry-leading technology and robust integrations

CSC offers:

Same-day scanning and electronic delivery of service of process (SOP), with online tracking for proof of delivery

Robust and fully customizable SOP-routing rules for automated distribution of documents uploaded via CSC SOP ManagerSM or your in-house system, which can be organized by any matter category you choose

Optical Character Recognition (OCR) scanning for every page to deliver pristine, fully text-searchable images for easy location and reporting

Permission-based access for easy collaboration with your entire team, including outside counsel, who can be given permission to the system as needed

Documents and document filing evidence from any transaction or corporate filing completed by CSC (formation, annual report, qualification, etc.)—automatically linked to the appropriate entity within your portfolio, without any manual work required from your team

Corporate entity status and information changes, as reported by the secretary of state, viewable in real-time

Secure, perpetual storage provided for all data and documents

Much more than a mailing address; an experienced team of compliance specialists can handle your filings and guarantee compliance for business licenses and annual reports

Online platform centralizes **all** compliance data and documents and provides direct access to other CSC compliance services, including CSC Entity ManagementSM and CSC Matter ManagementSM, and offers secure integration with your other downstream third-party systems via our premier application program interface (API)

A seamless transition with award-winning service

CSC will establish a dedicated service team for your account and they will serve as your point of contact for the transition.

When assigned, CSC will conduct a nationwide good standing audit of your entities to reveal the states where each is registered, status, and current registered agent.

Through a limited power of attorney, CSC prepares and files all change of agent forms at no charge to you.

CSC works with reliable sources in every jurisdiction and is backed by a reputation of more than 120 years of experience.

CSC fully discloses all charges up front, so there are no surprises with respect to invoices and you only pay for the services you need—never those you don't.

A smiling woman with long dark hair, wearing a white blouse, stands in an office environment. To her left, a woman with short grey hair is seen from the back. To her right, a man in a plaid shirt is partially visible. The background shows office windows and a blurred woman with glasses in the foreground.

SECURITY

All SOP is centrally reviewed, indexed, and processed by U.S.-based CSC employees. CSC does NOT offshore, outsource, or relegate SOP decisions or matters to non-CSC employees or consultants.

All applications and data maintained on CSC servers, networks, and data storage systems are located within a world-class, ISO 27001-certified and Service Organization Control (SOC)-audited co-location hosting facility in Ashburn, VA, with a secondary CSC-owned facility in Springfield, IL.

SOC 2 Type II assessments are conducted annually by third-party auditing firms.

ABOUT CSC

CSC was founded in 1899 to simplify the way corporations were formed, operated, and maintained their compliance. Today, CSC delivers world-class service, and provides technology and workflow solutions to keep customers in compliance, better manage risk, and run their businesses in a more streamlined way. CSC's scalable service and solutions add value and expertise as customer needs evolve.

We demonstrate this every day by:

Valuing relationships

CSC's reputation for unmatched customer service is why more than 90% of the Fortune 500®, including top financial institutions and more than 180,000 corporations worldwide, trust CSC with their business.

Applying expertise

CSC's unique service model and centralized compliance solutions help clients:

- Improve communication and collaboration among internal teams and external partners
- Integrate with existing enterprise systems and processes
- Customize workflows to improve efficiency
- Improve transparency to legal and compliance matters
- Secure sensitive data and documents

Giving back

Our employees are motivated to be better off tomorrow than they are today, and part of that approach is improving the communities where we live and work. CSC supports more than 130 non-profit organizations across the U.S. and around the world.
